SPEED & PERFORMANCE

- Core Web Vitals (LCP, INP, CLS)
- PageSpeed Insights Optimization
- Caching (Server + Browser)
- CDN Setup (Cloudflare etc.)
- Image Optimization & WebP
- Database & Query Optimization

PROFESSIONAL EXPERIENCE

WordPress Developer | Seosite Soft — July 2025 – Present

- Build and maintain high-performance WordPress websites with strong emphasis on technical SEO and Core Web Vitals compliance.
- Implement advanced speed optimization: multi-layer caching, CDN configuration, WebP conversion, critical CSS, and asset optimization.
- Develop custom plugins/themes and perform technical SEO audits, schema implementation, and Search Console remediation.

Assistant WordPress Developer | Asianet Pakistan – Karachi — September 2025 – May 2026

- Assisted in development of complex WordPress solutions; contributed to performance tuning, SEO implementation, and plugin customization.
- Supported REST API integrations and theme/plugin modifications for client projects.

WordPress Developer | Maxenius Solution — September 2022 – July 2025

- Designed and developed fully responsive WordPress websites using custom themes, Gutenberg, Elementor, and WPBakery.
- Led website performance initiatives: significantly improved load times and Core Web Vitals scores through caching, CDN, image optimization, and code cleanup.
- Implemented technical & on-page SEO best practices (meta tags, structured data, sitemaps, Search Console setup) to boost organic visibility.
- Created custom plugins (user management, voting systems, role-based access) and integrated third-party APIs and WooCommerce solutions.

PROFESSIONAL EXPERIENCE (CONTINUED)

WordPress Developer | Codeswaggers — November 2021 – August 2022

- Designed and developed fully responsive, dynamic WordPress websites with custom themes and plugins aligned to client business goals.
- Ensured mobile-first design, cross-browser compatibility, and solid foundational performance practices.

PHP Developer | Globalis / Global Solution — August 2020 – October 2021

- Developed and maintained dynamic web applications using Core PHP with focus on performance, scalability, and maintainable architecture.
- Worked extensively with MySQL, custom backend logic, and JavaScript front-end integrations.

KEY CUSTOM PLUGINS & PROJECTS

- **User Management Plugin**
  Advanced user administration, profiles, and permission control for WordPress.
- **Voting Management System**
  Complete voting/poll solution built as a custom WordPress plugin.
- **Role-Based Access Plugin**
  Fine-grained role and capability management for multi-user sites.
